Customer: _____

Job Location: _____

Coil Configuration

Coil Type: _____ Number of Circuits: _____

Number of Rows Deep: _____ Number of Spigots (Tubes) Going Into Each Header: _____

Number of Tubes in Coil Face: _____ Header/Connection Diameter: _____

Fins per Inch: _____ Connection Type - MPT: FPT: Sweat: Other: _____
(Check One)

Air Flow - Horizontal: Vertical: (Check One)

Right or Left Hand Connections: _____ (When facing the coil with the air hitting you in the face) Refrigerant: _____
(Complete the following for a refrigerant coil)

Coil Tube Diameter: _____ Evaporating/Condensing Temp. (°F): _____

Coil Tube Wall Thickness: _____ Total Capacity (BTUH or Tons): _____

Coil Performance (If Known)

Total Capacity (BTUH or Tons): _____ Fluid: _____

Air Flow (SCFM): _____ Fluid Flow (USGPM): _____

Entering Air Temp. (°F): _____ Entering Fluid Temp. (°F): _____

Leaving Air Temp. (°F): _____ Leaving Fluid Temp. (°F): _____
